Seneca Shake Tiles

Titus Tiles

Available in nine unique colors and six classic profiles, EcoStar tiles offer endless architectural possibilities that allow anyone to create a roof that matches their own personal style. EcoStar tiles are comprised of recycled EPDM rubber and TPO plastic polymers that make them much stronger and more durable than traditional slate and shake roofing materials. Every EcoStar tile is formulated to withstand the harshest weather conditions, offering superior performance and long life-cycle savings. Guaranteed to offer years of relentless performance, EcoStar tiles are an ideal solution for your long-term roofing needs. Whatever your style, EcoStar will protect it.

EcoStar

EcoStar®, a division of Carlisle SynTec Incorporated, leads the industry with its premium, steep-slope manufactured slate and shake roofing tiles. EcoStar products exceed quality standards in the roofing industry and are the responsible, long-term choice among today's most progressive homeowners, contractors and architects.

Rich Tradition

Every EcoStar product is backed by Carlisle's rich history and solid reputation in the roofing industry. Utilizing a vast network of qualified contractors and Carlisle's experienced field service representatives, EcoStar offers the most comprehensive service and support in the steep-slope roofing industry. A relationship with EcoStar is a relationship with Carlisle, the roofing industry's leader for more than 40 years.

Gold Star Warranty

EcoStar's 50-year Gold Star Warranty is the definition of performance and durability. A progressive and all-encompassing warranty that offers long-lasting protection against wind, rain, fire and hail, EcoStar's 50-year Gold Star Warranty has no rival. Offering building and homeowners a lifetime of security and protection, the fully transferable Gold Star Warranty is supported by EcoStar's extensive network of Gold Star contractors and Carlisle field service representatives.

Before any Gold Star Warranty is issued, EcoStar offers comprehensive contractor training, job start-up support and finished roofing inspections. This ensures that every Gold Star system is installed with the utmost quality and attention to detail. EcoStar's industry-leading warranty is more than just the finished roofing tiles. Each 50-year Gold Star roof is a complete system that also includes a full line of underlayments and accessory products working together in harmony to provide your investment with the protection it deserves.

Elements of an EcoStar 50-Year Gold Star Warranted Roof

- Gold Star approved applicator
- Minimum 3:12 pitch
- 1/2-inch plywood substrate
- Glacier Guard and Aqua Guard underlayments
- EcoStar premium roofing tiles
- EcoStar stainless steel fasteners
- Copper or stainless steel flashing material
- Completed inspection by Carlisle field service representative

EcoStar's 50-year Gold Star Warranty is more than a roof – it's a system. A system made possible through EcoStar's commitment to offering the most superior products and services on the market.
