sustainable roofing for your lifestyle

As the leading manufacturer of premium steep-slope roofing products, EcoStar continues to provide the roofing industry with unique, sustainable products that offer exceptional longevity, durability and aesthetics. In addition to its Seneca Cedar Shake tiles, EcoStar offers a full line of synthetic slate and designer tiles as well as accessories.

EcoStar offers environmentally friendly building materials. What makes them eco-friendly? They meet the three criteria that define environmentally friendly, sustainable building products: made of recycled material, can be recycled and offer an extended lifecycle (50-year warranty).
